ABOUT US

MISSION STATEMENT

To inspire and enable all young people to realize their full potential as productive, responsible and caring citizens

ABOUT THE BOYS & GIRLS CLUB OF NORTHERN WESTCHESTER

The Boys and Girls Club of Northern Westchester (BCGNW) in Mount Kisco is a nonprofit organization dedicated to the service of all youth through quality programs designed to enhance their lives through education, athletics and social interaction.

The BGCNW helps members build self-esteem by incorporating a proven youth development strategy in all programs and services. This strategy instills in every member:

A sense of competence: The feeling there is something they can do well;

A sense of usefulness: The opportunity to do something of value for other people;

A sense of belonging: A setting where members know they are accepted and fit in, and

A sense of power or influence: A chance to be heard and to influence decisions.

The goal of all BGCNW programs is to teach youth to feel good about and believe in themselves. Programs are designed to be fun while teaching valuable life lessons.

DRUG AND ALCOHOL-FREE WORKPLACE POLICY

BGCNW has a vital interest in ensuring a safe, healthy and efficient working environment for our employees, their co-worker, volunteers, and the members we serve. The unlawful or improper use of controlled substances or alcohol in the workplace presents a danger to everyone. In addition, as a Federal grantee, we have a duty to comply with the requirement of the Drug-Free Workplace Act 1988. For these reasons, the following drug and alcohol free workplace policy has been established as a condition of volunteer placement or continued volunteer placement with BGCNW.

All employees, volunteers and consultants are required to abide by this policy. They are required to inform appropriate supervisors of policy violations.

Volunteers are prohibited from reporting to work or working while using illegal or unauthorized drugs. Volunteers are prohibited from reporting to work, or working when the volunteer uses any drugs, except when the use is pursuant to a doctor's orders and the doctor has advised the volunteer that the substance does not adversely affect the volunteer's ability to safely perform his or her job duties.

In addition, volunteers are prohibited from engaging in the unlawful or unauthorized manufacture, distribution, sale or possession of illegal drugs and alcohol in the workplace including: on organization paid time, on organization premises, in organization vehicles or while engaged in organization activities.

Each volunteer taking a legal drug which could affect job safety or performance is responsible for notifying the Director of Finance and Administration without disclosing the identity of the substance and providing a physician's certificate stating the substance does not adversely affect the volunteer's ability to safely and efficiently perform the volunteer's job duties and /or provide any work restrictions. If the organization and the volunteer's physician have determined that the substance volunteer's job duties or determined that a reasonable accommodation can be made, the volunteer may commence work. A volunteer may not be permitted to perform his or her job duties unless such a determination or reasonable accommodations is made.

In accordance with the Drug-Free Workplace Act of 1988, volunteers must notify the Director of Operations of any criminal drug statue conviction for a violation occurring in the workplace within five (5) days of such conviction.

Your volunteer placement or continued volunteer placement with the organization is conditioned upon your full compliance with the forgoing drug and alcohol free workplace policy. Any violation of this policy may result in disciplinary action, up to and including discharge from your volunteer placement.

Consistent with its fair employment policy, the organization maintains a policy of non-discrimination and reasonable accommodation with respect to recovering addicts and alcoholics, and those having a medical history reflecting treatment for substance abuse conditions. Employees and volunteers are encouraged to seek assistance before their drug and/or alcohol use render them unable to perform their essential job functions or jeopardizes the health and safety of themselves, or others.

BGCNW further reserves the right to take any and all appropriate and lawful actions necessary to enforce this Drug and Alcohol-Free workplace policy, including but not limited to, the inspection of organization issued lockers, desks or other suspected areas of concealment, as well as a volunteer's personal property when the organization has reasonable suspicion to believe that the volunteer has violated this drug and alcohol free workplace policy.

BGCNW will provide education materials and programs on the danger of drugs and alcohol to its volunteers on a periodic basis, provide information on counseling and rehabilitation services available to volunteers with drug problems, and notify funding agencies as defined by the Anti-Drug Abuse Act of 1988, when an employee or volunteer is convicted of a drug offense that occurred in the workplace.

The policy represents guidelines only and should not be interpreted as guarantee of volunteer placement.

Drug Testing

BGCNW is determined to eliminate the use of illegal drugs, alcohol, and controlled substances at our work site. The purpose of this program is to improve job safety on all projects. This program is designed solely for the benefit of our employees and volunteers to provide reasonable safety on the job and protection from offending individuals. In addition, this program attempts to meet our responsibility to the public, whom we serve.

- When a volunteer shows signs of impairment on the job;
- After an accident or occurrence that results in an injury on the job as defined by the Occupational Safety and Health Administration;
- After any vehicular accident when it appears that the volunteer might reasonably have avoided the accident or minimized the consequences, but did not do so;
