

PROGRAM FACT SHEET

BGCNWS Liberty Keystone Club is a premier teen leadership program, the goal of which is to promote character and leadership qualities among Club teens; to provide awareness and impact in the areas of community service, academic success, career preparation and teen outreach, the four focus areas of Keystoning. With the guidance of Club staff, teens are given opportunities to make leadership decisions, serve others and engage in experiences that help to shape their knowledge of academic, career, community service and teen outreach initiatives and projects.

Each year, Keystoners across the nation participate in a National Project. The theme of the 2021-2022 project was There Is No Planet B. Keystoners implemented initiatives and developed curriculum to spread awareness about the need for environmental stewardship within the Club and surrounding community. Initiatives included recycling, sustainable farming, and more.

Our liberty Keystone Club not only incorporated a comprehensive recycling program in the Club, but also entered the project into the Bedford 2030 Greenlight Project competition - and WON!

The 2022-2023 theme is Reaching Equality Through Diversity.

Liberty Keystone 2021-2022. Winners of the Bedford 2030 Greenlight Project.
